

研究所新生面談

學生自我介紹

- Talk about yourself
 - What is your undergraduate study?
 - Where do you come from?
 - What is your senior project?
 - What are the programming skills you have?

研究領域：軟體工程

- What is software engineering?
 - Building a dog house \Leftrightarrow 101
 - Large software
- Some current research results for reference (demo)
- Our emphasis
 - Both academic importance and working software
 - Development process, practices, and skills

研究能力發展

- Research
 - Understand research problem
 - Related literature review
 - Propose methods (for the research problem)
 - Software design and implementation
 - Evaluation (experiment)
 - Writing
 - Presentation

實驗室日常

- Regular Meetings
 - Weekly group meeting
 - Weekly individual meeting
- Teaching Assistant
 - A learning opportunity with a little extra pay
- Industry Projects (depends)

加入實驗室的條件

- You are required to write homework#1 of POSD course
 - Your code is evaluated based on
 - Understanding of object design
 - Code readability and maintainability
 - Understanding of design patterns
 - Exception handling
 - Offer suggestions for the preparation that is necessary before entering our lab

獎助金

- Scholarship
- Internship
 - Depends
- Part-time job
 - Please let me know, if you have a financial need that requires a part-time job

其他

- Have you met senior members of our lab?
- Are you waiting for an admission from any other graduate school?
- Q&A
